

### 3 Focal Lengths Available

Vandelay Endless Office Occupational lenses allow you to select from three maximum working distance options based on the most common wearers.

#### Vandelay Endless Office Occupational | 1.3 m

**Clear vision from 35 cm (14 in) to 1.3 m (4.2 ft)**

**Types of use:** when clear vision is required at desk level, prolonged use at very near distances.

**Ideal wearer:** presbyopes who work in a small space and spend a significant amount of time focusing on very near distances. For example, office workers who spend most of their time viewing monitors on a desk.

#### Vandelay Endless Office Occupational | 2 m

**Clear vision from 35 cm (14 in) to 2 m (6.5 ft)**

**Types of use:** when clear vision is required at desk level, prolonged use at intermediate and near distances.

**Ideal wearer:** presbyopes who work in a room-sized space and spend a significant amount of time focusing at intermediate and near distances. For example, office workers who utilize monitors but have a need to view another person at a conversational distance.

#### Vandelay Endless Office Occupational | 4 m

**Clear vision from 35 cm (14 in) to 4 m (13.1 ft)**

**Types of use:** when clear vision is required in a room-sized space and extra viewing is needed at intermediate and near distances.

**Ideal wearer:** presbyopes who work in a larger space and spend time focusing on intermediate and near distances. For example, people who utilize monitors and have a need to view another person at a conversational distance and move about their workspace.

## Vandelay Endless Office Occupational Lenses (Office Reader II)

Fully personalized free-form lens for maximum performance in intermediate and near zones.

## Vandelay Endless Office Occupational

With the emergence of remote work, more and more presbyopic professionals (i.e. teachers, programmers, architects) spend a large part of the day using their intermediate and near vision. As optical professionals, it is our duty to offer them a comfortable lenses that meet their visual needs.

Single vision lenses correct for one point in the distance, and progressive lenses have limited intermediate viewing areas. **Vandelay Endless Office Occupational** lenses adjust to wearers' needs and offer unmatched near and intermediate vision.

These lenses incorporate **IOT Digital Ray-Path 2 Technology**, making them fully customizable and reducing oblique aberrations to further expand the wearers visual range.

**An occupational lens with a wider near and intermediate vision range.**

## Precise focus in the accommodative object space

IOT Digital Ray-Path 2 Technology adds the intelligent use of the wearer's own accommodation to optimize the lens for a range of focal distances. **Vandelay Endless Office Occupational** lenses have drastically reduced oblique aberrations across the entire visual field and offer the wearer greater comfort, impeccable visual quality, and more precise focus.

### Ideal Wearer

Those who spend extended periods of time viewing objects in near and intermediate distances. New presbyopes and remote workers. Wearers with all types of prescription and addition powers.

### Features & Benefits

- Fully personalized occupational lens
- 3 focal lengths available: 1.3 m | 2 m | 4 m
- Technology: IOT Digital Ray-Path 2
- Maximum intermediate & near visual fields
- Improved postural ergonomics avoiding unnecessary head movements
- Precise & comfortable focusing, especially when using electronic devices
- Near elimination of peripheral blur
- Superior visual quality for viewing digital devices
- Excellent dynamic vision, easy transition between near & intermediate visual fields
- Immediate adaptation
- MFHs: 14 & 18 mm
